

Sent to the Union of International Architects on Monday the 8th day of October at 9.10 am.

My first and last love, is Architecture. Participating in Correspondence Courses in Architecture and Interior Decoration, allowed me to lecture for our School of Continuing Studies at our University of the West Indies in Trinidad and Tobago for 18 years. I Bought a home in a low cost community and used it as a Settlement House for over 4 decades gathering valuable research to assist my growth in Architecture. A supporter of Organic Architecture and a great admirer of Frank Lloyd Wright's work and philosophy. Used a non-profit company to channel most of the research and archived said work at <https://www.archive.org/details/@mavawsec>. The most poignant philosophical work to Architecture is "Violence In Architecture", "Country Report to Habitat 2 in Istanbul" and "Natural Growth Architecture". 59 uploads are on this archive, all for free download and sharing, following the standard copyright practice, i.e. the source must be identified, the work must be used for the purpose intended and no money profit must be received in the use and sharing. Now having discovered the existence of the Union of International Architects, UIA, I want to share my commitment to study and be a part of the discipline of Architecture, which will never stop in my lifetime.

General Secretariat

The UIA General Secretariat, placed under the responsibility of the Secretary General, is the Union's executive body and the administrative centre for the coordination of relations between the UIA Member Sections and their activities.

The General Secretariat assists architects and architecture students in getting into contact with professional colleagues throughout the world, from professional organisations and architectural schools to museums and media.

The General Secretariat helps architects to keep up to date with UIA activities, its partners and Member Sections.
